

KURIAKOSE ANTONY

Alappuzha, Kerala, India | +91 70251 50101 | kuriakoseantony16@gmail.com | linkedin.com/in/kuriakose-antony-8ba367282

PROFESSIONAL SUMMARY

Computer Applications postgraduate (MCA) with strong fundamentals in programming, data structures, and the software development lifecycle (SDLC). Hands-on experience designing, building, and testing full-stack web applications using Java, Python, JavaScript, the MERN stack, and Django REST Framework, gained through academic and independent projects. Comfortable working across SQL and NoSQL databases (MySQL, SQLite3, MongoDB), with an Elite certification in Python for Data Science (NPTEL/IIT Madras). Strong analytical and problem-solving skills, quick to learn new technologies, and eager to build a long-term career in a growing software development team.

TECHNICAL SKILLS

- Programming Languages: C, C++, Java, Python, JavaScript
- Core CS Fundamentals: Object-Oriented Programming (OOP), Data Structures, Database Design
- Web Development: HTML, CSS, JavaScript, React.js
- Backend Development & REST APIs: Node.js, Express.js, Django, Django REST Framework
- Full-Stack Development: MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Database Management: SQL (MySQL, SQLite3), MongoDB (NoSQL)
- Testing & Debugging: Manual testing, debugging across frontend/backend, writing test cases for module-level features
- AI / Data Science: Python for Data Science (NPTEL — Elite Certification); interested in applying AI-assisted development tools
- Documentation: SRS authoring, technical documentation, PDF workflow generation (ReportLab)
- Operating Systems: Windows, Linux

PROJECTS

Role-Based Hostel Management System

2026

Django 5.2, MySQL, Bootstrap/Tailwind CSS, ReportLab, Chart.js

- Built a role-based system for Admin, Warden, Caretaker, Security, and Student roles across 13 Django apps and 18 database tables, delivered from a full SRS covering ~35 functional requirements and 16 business rules.
- Implemented atomic bed allotment using `select_for_update` to prevent race conditions, an SLA auto-escalation workflow via scheduled tasks, and a mock payment gateway with PDF receipt generation.
- Authored the accompanying SRS and technical workflow documentation, generated as PDF reports using ReportLab.

Clinic Management System

May 2026 – Jun 2026

React.js, Django, Django REST Framework, SQLite3

- Designed and developed an interactive clinic management web application with a modern, glassmorphic UI using React.js.
- Built RESTful backend services and API endpoints using Python, Django, and Django REST Framework, with data persisted in a SQLite3 database.

Legal Hub

Jan 2025 – May 2025

- Developed a secure, web-based platform enabling a lawyer's office to manage case information efficiently.
- Designed a structured database schema to support efficient data storage, retrieval, and scalability.

EDUCATION

Master of Computer Applications (MCA)

Aug 2025 – Present

Mar Athanasios College for Advanced Studies (MACFAST), Tiruvalla, Kerala

Bachelor of Computer Applications (BCA)

Sep 2022 – May 2025

Mar Gregorios College, Punnappra, Alappuzha, Kerala

Senior Secondary Education (Science Stream)

Jun 2020 – Apr 2022

St. Aloysius Higher Secondary School, Edathua, Alappuzha, Kerala

TRAINING & CERTIFICATIONS

- Full Stack Web Development – MERN Stack, Faith Infotech Academy, Technopark Campus (June 2026)
- Python for Data Science – NPTEL, IIT Madras — Elite Certification (Jan–Feb 2026)
- IT Industry Practice Program – Faith Infotech Academy, Technopark Campus — hands-on exposure to real-time IT industry workflows and project collaboration

Languages: English — Full Professional Proficiency | Malayalam — Full Professional Proficiency
